ABOUT ME

As a detail-oriented and outside-the-box thinker, I am very confident in my personal and professional abilities.

I see education as a way of life rather than a means to an end. Developing the ability to teach myself has proven valuable in all areas of life and gives me the confidence that I can accomplish any task given to me.

SKILLS

5 / 10
Pandas, Sklearn, Tensorflow, Keras

5 / 10
Machine learning

5 / 10
Prediction/forecasting and Classification

10 / 10
Ability and desire to learn

7 / 10
SQL, DAX

EXPERIENCE

System Administration Officer

Bank OZK / Little Rock / 2018 - 2020

Responsible for the majority of all Treasury systems and their ability to run and comply with audit requests.

- Developed and implemented projects such as Remote Official Check, SWIFT, Intranet, Dovetail, Escrow and Commercial Center through Quality Assurance testing and required assessment of weaknesses/issues.
- Development of raw-data SQL queries for automation of reports and processes.
- Analysis of current processes and procedures for improvements.
- Served as part of the Technical Change Committee and consulted for the Enterprise Risk Management Group on app development and improvements.

Treasury Management Specialist

Bank OZK / Little Rock / 2017 - 2018

Managed time between wires transactions and new projects that lead into the role created above.

- Managed roles in three projects simultaneously while performing the management of the flow and process of outgoing wires by all commercial customers.
- Conducted training and development of procedures for the Treasury Management Department.
